SPRING IS HERE!

Commentary by John Bankel

Mathematics at its finest. The precision with which God has created the Universe is astounding. "In the beginning God (Elohim) created the heaven and earth." Genesis 1:1 Mankind continues to find out about His creation. Elohim set the stars and planets in their places and put them into motion "for signs and seasons." And like clockwork, every 365 days we go through 4 seasons. According to the calendar we Americans use, Spring always happens on March 20. It is the day when we have equal night and equal day; it is called the "Spring Equinox." (The word

"equinox" is Latin meaning "equal night.") From this day forth, the days will get gradually longer until June 21, the first day of Summer, which will be the longest day; it is called the "Summer Solstice." ("Solstice" is also Latin meaning "the sun stands still.") From that day forth, the days gradually become shorter until the day is once again equal to the night on the first day of Fall, September 21. That day is called the "Fall Equinox." From that day forth, the days become gradually shorter until the shortest day, December 21, the first day of Winter, the "Winter Solstice." Like a precision

clock the heavens and the earth make their way into eternity. You can count on it. Mathematics at its finest. The universe is a huge clock ticking into eternity where time will be no more. Happy Spring, the time of renewal and refreshment.

A Short Stop At Stilwell School District Special Services

Story by: John Bankel

It was "Down Syndrome Day" on 3/21 at the Stilwell Special Services facility located at the corner of Division and 6th Street. Special Services provides for the special needs students of Stilwell School District in an atmosphere of love and caring. Rachele English, who comes from a long line of educators in the

Stilwell area, is the director of the staff whose photo is shown below, each wearing their special Down Syndrome commemorative tee shirts. The work that these people do is very difficult yet extremely rewarding. Stilwell is blessed to have such a dedicated group caring for the special needs of our students.

They Risked It All/It's the Truth MEMORIES OF FARM AND FAMILY

Number 18

By Donna Boecher

I remember tales of Coon Mountain and Zion. I'm sure you have your own tales in your neck-of-the-woods. There was a time and place - it may still live - where women gathered to visit and help their neighbor or family member ready vegetables for canning. The chairs were always in a circle so that you could visit. Granny had colored metal outside chairs with curved support - lacking legs they didn't make holes in the lawn. If you have any, they

are considered "vintage." But then, I'm vintage; I remember. As a young adult, I managed to join the circle. My mother had gone haywire planting spinach! Yuk! Thank goodness there was a water hose from the well! We didn't have to pay a "city water" price just to wash the vegetables. We'd rinse, rinse, and rinse again!! But times have changed. WE'RE BUSY. We have TV and Netflix; church events; and children or grandchildren involved

in multiple extracurricular programs. Commercially grown produce at the grocery store has spoiled us. We still plant small gardens of a few favorites, BUT I'm missing my grandmother's huge metal pan for rinsing or snapping, and there's no need for a plethora of vegetables for a family of one or two. I remember those good times; think I'll plant a zucchini or two.

DONATION TO SPECIAL SERVICES

Pictured, in front, left to right: Sheila Crittenden and Gabe Samargis. In back, left to right: Laura Samargis, Karen George (President, Zion/Stilwell OHCE club), Fionna Moldrup, Rochelle English (Stilwell Public Schools Special Education Director), Katherine

The Zion/Stilwell club of Oklahoma Home and Community Education presented Stilwell Special Services with a generous donation of supplies needed in our special education program. Also donated was \$200 so Stilwell Special Services can obtain more supplies, as needed. These supplies will benefit our students in the daily classroom, Special Olym-

pics meets, and field trips. They also came in celebration of World Down Syndrome Day where several teachers and students held parties and educated students about Down Syndrome. World Down Syndrome Day is marked each year on March 21, beginning in 2007. The 21st day of March was selected to signify the uniqueness of

the triplication of the 21st chromosome which causes Down syndrome. Every year on March 21, World Down Syndrome Day is observed to create awareness about Down syndrome. The special services teachers and staff appreciate this organization and the thoughtfulness they show each year by donating to their students.

Dear John,

My grandson is full of pranks. We had him over to the house a few nights ago and he switched our false teeth sometime while we were sleeping. I'm thinking that as a child it would have grossed me out to touch some old persons teeth. You can imagine our surprise the next morning, but we never mentioned it to our guest. He moved our medications all around, Pop and I had to sort them out. He just sat at the kitchen table and grinned. After breakfast Grandpa asked our grandson to help with the dishes. Then gramps called the dog over and let him lick the plate and then put it up in the cabinet. Our house guest went home that afternoon. Later we got a call from our daughter. She asked if we really let the dog lick the plates. Grandpa said, "Sure that is how we do our dishes around here." She told her dad, "That her son wouldn't be returning." Well, we will miss the boy. Do you think our prank was over the top?

Grands Had Enough

Dear Grands Had Enough...doing pranks can be funny but mostly to the prankster. There are innocuous (harmless) pranks and then there are pernicious (harmful) pranks. Switching false teeth is pretty harmless and funny. Switching pills can be harmful and not funny. Getting back at your young prankster is priceless. Grandson may just be a chip off the family block? And if mama ever lets him come back, it probably won't be for dinner. He has had enough.

Sincerely,

Dear John

THE CONSERVATIVE VIEW

By Russell Turner

VERY INTERESTING

I once read that one of the most powerful forces on earth is compound interest; if we ever needed a reminder of the power of interest, just watch the recent news about some of our large banks going belly up. From what I have heard the banks that went broke were heavily invested in long term bonds, and the fed's interest increases over the past year are the primary reason for their default. I watched resident Biden's address to the nation Monday morning where he attempted to reassure the American people that every thing was all right, and he couldn't resist blaming former President Trump for the banking problem. Some of my fellow citizens may feel encouraged about Biden but I, for one, have no faith in him whatsoever; we are in this current economic problem because of his assinine policies in the first place.

Biden has done nothing but stoke the flames of racial hatred in this country, all at the same time he has declared war on our energy industry while promoting his woke green energy

policy. Also, because of his reckless spending spree with taxpayer monies, he has flooded our economic system with boatloads of money which has caused inflation not seen in this country for the last 40 years. Interest rate hikes are the one tool the fed has to reign in our out-of-control inflation; for years the fed has kept the interest artificially low, but we are in a situation where even if we returned to normal interest rates it would not be enough to slow inflation. Some economists have said that interest rates will have to be 10% or higher. The last time our country faced out-of-control inflation was in the late 70's and early 80's, at that time the interest rate soared to 18%; if we tried to go that far today we would destroy our economic system.

Today we have a massive national debt that is over 31 trillion dollars, and if we were foolish enough to try to go to 18% interest our country would be paying more interest on the current debt than it could collect in taxes. In essence, the fed and their constant tinkering

with the economy has created a trap that it is going to be hard to get out of. If that were to happen our government would try to print more money to keep things going a little longer, in the end it would cause hyperinflation which would wipe out all retirement accounts and the hard-earned savings of all Americans.

Massive government is the main driver of our current inflation problem, now our occupant of the white house is proposing a budget of over 6 trillion dollars. Economists are already predicting that over the next 10 years our national debt will grow by another 19 trillion dollars. I find it very interesting that so-called intelligent people cannot see the train wreck that is about to happen in our economy. When the history books are written they will tell of a time where the most foolish senator was installed in the White House and, because of his mental deficiencies, destroyed the greatest country in the history of the world while eating an ice cream cone.

SAMPLE BALLOTS AVAILABLE FOR APRIL 4, 2023 ELECTION

Sample ballots are now available for the April 4, 2023 Election. Voters can download a sample ballot using the State Election Board's OK Voter Portal at oklahoma.gov/elections/ovp or pick up a copy at the Adair County Election Board during normal business hours.

Adair County Election Board Secretary, Jan Wilhite , reminds voters that sample ballots are specific to each person.

"If the OK Voter Portal indicates that you have no sample ballots available, it means you are not eligible to vote in an upcoming election. We recommend checking the OK Voter Portal to make sure you have an election before heading to the polls."

Wilhite said sample ballots will also be posted outside every precinct polling place on Election Day, so voters can review them before casting their votes.

The Adair County Election Board is located at 220 W. Division, Stilwell, Okla. and is open from 8:00 a.m.

to 4:00 p.m., Monday through Friday . For questions, please contact the Election Board at 918-696-7221 or adaircounty@elections.ok.gov .

ON THE CAMPAIGN TRAIL

COMMENTARY BY JOHN BANKEL

Today's Trail Treks To Fifty First State

There is a push by Congressional democrats for the creation of a fifty first state for our Divided States of America. The fact of the matter is that America is no longer a united nation, and perhaps, in reality it has never really been, even from the outset. Clear back in 1776, despite the Declaration Of Independence and the subsequent drafting of the Constitution which joined the 13 colonies into a "Republic," and in the words of Abraham Lincoln, "to form a more perfect Union," that "perfect Union" never existed. Factions arose and factions invariably create conflict and conflict invariably creates dissent and dissent often creates dissolution. So here we are today with the USA once again under severe stress to remain a united country, not unlike in the beginning nor unlike during the Civil War period. The current Senate, under the leadership

of left-wing Chuck Schumer, is fixing to incorporate Washington DC as the 51st State. There is nothing unifying about this strategy except to further unify the power grip of the democrats. (As an aside, someone just the other day called the democrat party the "unity party," meaning that democrats act in unison whereas Republicans are severely scattered within their ranks when it comes to formulating policy.) When one considers that DC is a democrat stronghold with no intention of changing its political stripes, this ploy is clearly intended to keep the democrats in power. There can be no other explanation despite what poppycock Shumer might offer? If this does come to pass, Republicans and other conservatives can kiss America "goodbye" and shake hands with the euphemism of socialism. Any clear thinking, level head-

ed American must do everything in their power to thwart this power grab. There is an organization called "National Write Your Congressman" (NWYC) that is set-up for ordinary citizens to have their Congressional representatives ear by direct contact. Check out their ad on this paper's ad page and give them a call. It is still not too late to engage your voice and roadblock Shumer and their left-wing agenda.

Today's Trail has come to an end. Perhaps we will meet again around the bend my friend. Til then, may your Trail end up on the right side of the fence. Vaya Con Dios!

WHAT'S SO PUNNY? PUN FUN

Spring time is a good time for corny jokes, but then again anytime is a good time for some corn. The best thing about corny jokes is that they do not have to be one size fits all. Adults and kids alike can enjoy 'em as they run the gumut from silly knock-knock jokes to "eye rolling dad jokes." Keep some in mind to help you start the ball rolling in your next social encounter. Keep your ribs and belly handy for a good laugh and good tickle. Here is your new PUN FUN.

VOTE YES TO CHANGE THE CHARTER ON APRIL 4 th !

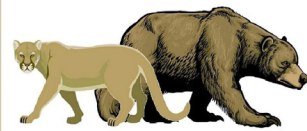

The proposed Charter Change on the Ballot will allow the Adair County Election Board to handle all the Stilwell City Elections.

Why is this good for Stilwell?

- * It will be a cost savings for the city,
- * It will allow city voting to be in the same location as other elections on the same day like School Board and ITCT elections,
- * All of the requirements for candidates and voters will be those established by State Law,
- * City Council Members will continue to be elected only by those who live in their ward,
- * There will continue to be no run-off elections – highest vote count wins, and
- * All elections will continue to be non-partisan.

On the Ballot, the Charter Change Proposition will be described as: "A proposal to amend the charter of the City of Stilwell so that all city elections will be conducted by the Adair County Election Board according to State Law except for the following four items which will not change: 1) all City Officers will take office on the first Monday in May, 2) there will be no run-off elections – highest vote count wins, 3) Council members are voted on only by the electors of their Ward, and 4) all

STILWELL SPORTS SPOTLIGHT

Commentary by John Bankel

Stilwell Soccer: The Baron Fork Clas-

Westville's boys and girls soccer teams came to Carson Park to do battle on the "pitch" in a contest called "The Barron Classic." It was a chilly windy first day of Spring, with a dark blanket of clouds overhead casting a gloom over the bundled-up spectators. A good crowd was on hand to watch. When I arrived, the girls were deadlocked at 1 goal apiece. Within 2 minutes of my arrival, the Lady Indians knocked in 2 goals in rapid fire succession. The halftime score stood at Stilwell 3 Westville 1. Stilwell's only score of the second half come on a pretty-as-you-please

play as Stilwell's Kinley deftly dribbled the ball through several Westville defenders; when she got to within striking distance of the goal, two Westville defenders came up to stop her but she funneled a perfect pass to Kacelyn coming up on her left. Kacelyn laced a beautiful bender arching over the goalie's head into the right hand corner of the net. The game ended with Stilwell 4 Westville 2. It was a very entertaining game to watch. The Stilwell boys had a much easier time of it as they avalanched the Westville boys 10-0. The Baron Classic trophy, which was presented

by Stilwell Mayor Jean Ann Wright, stays in Stilwell. Great job Stilwell!

Stilwell Girls' Golf

On a blustery first day of Spring, the Stilwell Girls' Golf team took off to Tahlequah to play in a season opening tournament. The girls performed well with a 2nd place team finish with Jenna Crittenden winning an individual medal for 9th place, as shown in the photo. The team photo has, L-R, Macie Ross, Ellie Sommers, Heather Brooks, Jenna Crittenden, Haven Ketcher, Macee Wheeler. Great job girls!
