

# They Risked It All/It's the Truth MEMORIES OF FARM AND FAMILY

Number 52

By Donna Boecher

Wondering what to ask for Christmas this year? Jeremiah 29:11 says that God has given to each of us, "peace." Such an amazing gift! It requires neither wealth nor position – only love. Once I raised Katahdin sheep. They were unique in that they

had hair, not wool, so they shed when they didn't need the warmth. Birthing 2 or 3 lambs, I had a large flock quickly. As the shepherd, I loved my sheep. I need only call and their "scape goat" Herbert (who I'd bottle fed after his twin died one cold night) would race up to the

pen behind the farmhouse to see me. I could move among them, and they would allow me to join them as I spread their feed. Such peace when I was amongst them. My own "wee" children. If we walk in obedience to God, there is Peace wherever we are. Shalom.

## ADAIR COUNTY EDUCATION SPECIAL The Teacher Feature

Continued .....

Her interest in that was keen enough that she thought a course in Aeronautics would be a plus for the students at Watts. She got the ball rolling a couple of years ago when she pitched the Principal. Although he did not immediately cotton to the idea, Ms. Martin did not give up. With a little persistence, she got the go-ahead and this school year she is teaching a group of about 15 students, who range from Freshman to Senior.

Although most of the class members will not eventually go into an aeronautics related field, their interest is keen. Donna keeps the class engaged with hands-on activities, such as taking a straw, a balloon and a piece of string with the aim of making the balloon fly up to the ceiling. Intruding? For sure. She also took the students on a day trip to Tulsa to visit the Aeronautics Museum, photos of which accompany this article. Another

project of keen interest and very timely is building a drone. The idea of flight has been around since mankind, being stuck to the ground, first observed the birds flitting about in total freedom. Today, we are rapidly becoming more and more airborne. Flying cars next? Ms. Martin is engaging her students in an exceptional high school subject. She is truly an exceptional teacher!

## Bill Of Rights Day 2023 Friday, December 15 COUNT DOWN

In 14 days.....

### Amendment 9

The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people.

Ms. Martin's Aviation class at the Aeronautics Museum

## CY BRAY:

### THE TELEPHONE MAN WITH THE GIFT OF HELPS

"Whether You Have A Dollar Or A Dime, Cy Bray Will Give You His Time."

Story by John Bankel

Rumor has it that Cy Bray, aka, The Telephone Man, has retired? In a recent interview with Cy and his wife, Celena, I was able to get to the bottom of that rumor. It is true that he is retired, yet it is also true that he is not. He has

recently said goodbye to Windstream after a fruitful career with that company. Anyone that knows Cy Bray knows that he is not the type of man who will lazily sit in a rocking chair sipping coffee and watching the world go by wait-

ing for the call up yonder. Not by a long shot. Cy hails from Cherryville, Kansas, a town of about 5000 in SE Kansas, near the Oklahoma border.

## Class 4A Football State Playoff Picture

In Stilwell's District, there were 2 teams that made it to the semi-final round: the Poteau Pirates and the Ada Cougars. Poteau rode a perfect 12-0 record into their battle with the Blanchard High School Lions, who came into the game with an 11-1 record. The Lions prevailed with a 26-14 victory that ended Poteau's quest for the Gold Ball. The Ada Cougars came into their game versus the Wagoner Bulldogs with an 11-1 record, having lost only to Poteau. Wagoner's overall record was 12-0-1. The game went

completely Wagoner's way as the Bulldogs chewed up the Cougars by a lopsided 42-7 score. The stage has been set for the Class 4A title game: Wagoner vs. Blanchard. Kickoff is Thursday, November 30 at 7 pm at the University of Central Oklahoma [UCO] Stadium, Edmond. Both Blanchard and Wagoner have hoisted the Gold Ball in the past, with Wagoner having done it 6 times in the last 10 years under head coach Dale Conduct. Blanchard owns 2 state titles, the most recent one was in 2012.

### Stilwell Boys and Girls Basketball

The round ball season gets underway Friday, December 1 at the Stilwell gym as the Roland Rangers come to town to continue an old rivalry. The girls start the action at 6 pm. The boys game should start at 7:30 pm. A good crowd is anticipated as the Indians and Lady Indians get to show what the 2023-24 Basketball season will bring.

## ON THE CAMPAIGN TRAIL

COMMENTARY BY JOHN BANKEL

### Today's Trail Treks To..... The Electric Vehicle (EV) Dilemma...

It was recently that the Ford Motor Company announced its plans to cut back on its investment in a new EV battery plant, from the original 3.5 billion to 2 billion. The cutback means 800 fewer jobs. The reasons that Ford gave were a declining consumer interest in EVs and much higher manufacturing costs than originally anticipated. The battery, which adds more than a 1000 pounds to the vehicle, is the heart of an EV. It looks like the EV business has come down with heart disease. The batteries needed to operate every EV have some serious drawbacks and appears to be the albatross around the neck of the EVs future. Among the problems the battery presents are: short shelf life, high replacement cost, intensive use of non-renewable components, environmental mining damage, exploitation of child labor (mostly in China), inordinate dependence on our main adversary, China, for raw materials and huge

consumption of fossil fuels in the manufacturing process. Yet, these are not the only drawbacks. Here are 7 Reasons why Electric Vehicles do not make sense:

- Reason #1: Range anxiety is the top reason why drivers refuse to go electric. One can't go very far on a full charge.
- Reason #2: Charging takes a half-hour or more, assuming one can find a charger.
- Reason #3: Electricity needed for charging is most likely generated by the use of fossil fuels, anathema to "climate changers."
- Reason #4: Power grid collapse, if all vehicles would be electric.
- Reason #5: Lack of crucial materials for the long haul to build batteries, among which are Lithium, Cobalt, etc.
- Reason #6: The manufacturing process is an environmental nightmare. Lithium production alone is so toxic that even the most ardent EV enthusiast

does not want it anywhere near them. That is why virtually all of it is done in China, making us dependent on our arch adversary. Reason #7: EV battery performance drops significantly in cold weather and in hot weather.

Taking all of the foregoing into consideration, the EV future looks short-lived and will Eventually Vanish (EV) into a distant memory of mankind's folly. The world economy runs on oil!

Today's Trail has come to an end. Perhaps we will meet again around the bend, my friend. Meanwhile, may your Trail end up on the right side of the fence. Happy Trails to you.

# ADAIR COUNTY HIGH SCHOOL BASKETBALL ROUNDUP

Commentary by John Bankel

The 2023-24 round ball season is upon us. This column will give updates on the basketball fortunes of Watts, Westville and Cave Springs high schools. Here are today's updates:

## WATTS ENGINEERS & LADY ENGINEERS

On 11/17, Watts launched its 2023-24 season with an away game at Oaks Mission. In the Boys game, Oaks had too much firepower for Watts as Oaks gave the Engineers a convincing 77-32 drubbing. In the girls game, the Lady Engineers did not fare much better as they took it on the chin by a score of 44-13. On 11/28, both squads traveled to Cameron, where the Engineers evened up their record by coming away with a narrow victory, 50-47. The score of the girls game was not available at press time. The next game will be at home versus Bokoshe on 11/30. Tipoff for the girls is at 6 pm; the boys tipoff at 7:30.

## WESTVILLE YELLOWJACKETS & LADY YELLOWJACKETS

Westville played its home opener on Tuesday 11/28 versus Salisaw. Both the Yellowjackets and the Lady Yellowjackets fell to the Black Diamonds. The Boys lost by a score of 50-38. The Girls came up short by a similar score of 54-28. On Friday, 12/1, both squads travel to Kansas. Girls tipoff at 6 pm; Boys at 7:30 pm.

## CAVE SPRINGS HORNETS & LADY HORNETS

On 11/29, the Hornets gave visiting Bokoshe a furious onslaught as they trampled the visitors by a score of 72-42. On Friday, 12/1, they take to the road to tangle with Oaks Mission. The Lady Hornets ostensibly took a foreit since the score was 2-0 in their favor. They will join the Boys at Oaks Mission on 12/1. Girls tipoff at 6 pm; the Boys at 7:30.

**Searching for a Word: tyrant.** A ruler who has unlimited power over other people, and uses it unfairly and cruelly.

Ex. Adolf Hitler was a tyrant, killing and enslaving many.

# THE CONSERVATIVE VIEW

By Russell Turner

## A VERY DEEP HOLE

For many years our economy has relied upon the American consumer spending spree to give us the illusion of prosperity. For decades the U.S. consumers have spent money no matter what the economic outlook was, but now things have changed. From what I have seen, the decline of the spending power of the dollar is forcing everyone to scale back un-bridled spending. While some people are receiving more dollars per hour, the increase in prices because of inflation is giving all Americans a pay cut.

I recently read some facts that will affect our entire economy. For many Americans the cost to rent a place to live is taking 30% of their gross income, we need to remember that 30% is taken from their pre-tax income. Fast food restaurants are extremely reliant upon consumers to keep the doors open, I read where three different major Burger King franchisees have recently declared bankruptcy.... even the e-commerce giant Amazon is not immune, they are cutting "several hundred" jobs within its Alexa division. All these companies must have a certain cash flow just to keep the doors open, without the income they must scale back just

to stay in business. What I am seeing is a trend, it reminds me of a snowball rolling down a steep hill. When one company pulls back, all their suppliers are also forced to cut back, the whole scenario is just like a row of dominoes all falling once someone pushes the first one onto the others.

Another thing that is directly impacted is the tax collection of our government, tax receipts have been falling on a quarterly basis since the third quarter of 2022. Sadly, our federal government is still on a spending spree, deficit spending continues to rise even though there is less money coming into the treasurer. The national debt seems like an unstoppable force that government officials are reluctant to address. When President Reagan was in office he was alarmed by the debt at that time, and it was a fraction of what it has become. Today the national debt has exceeded 33 trillion dollars and that is not even factoring in the unfunded mandates such as Social Security and Medicare. Today our interest payment on the current debt has exceeded 1 trillion dollars per year. If we were not having to pay that interest payment, just think how many improvements could be

done in our nation. Once a country starts down a slippery slope like we are currently started down, things will not get any better until there is a major change of thinking of the people of this country. We have become a people who are concerned about what is good for us and to heck with all others. Our country has always prided ourselves with being a superpower military, but we need to remember a country cannot maintain a superpower status while its economy is riddled with debt.

I do not see a huge increase of consumer spending increasing in the near future, too many of our citizens simply do not have the money above what it takes to buy the basic needs. Many of our fellow Americans are living paycheck to paycheck, at the same time credit card debt is at record highs. We Americans are in a deep hole, we have allowed our ears to be tickled by worthless politicians who promise something for nothing. We Americans will experience some severe economic pain, I just hope that we will find the strength to survive it.

## Judges Introduced for Dreamstar Pageant

Dreamstar had the pleasure of introducing successful hometown ladies Saturday evening including a hometown celebrity to sit on the judges panel. Jen Boecher pictured is from the Hit show on TLC 90 Day Finance "The other way". Also including from left to right is Co Director Rosita Gallardo, Jen Boecher, Founder/Director Lora Gallardo, Rena Worley and Donna Boecher.

## WHAT'S SO PUNNY?

### PUN FUN

Well, here we go again. Another batch of funny bone rubbing, knee slapping, rib tickling puns that will lift you up or throw you down onto the ground with laughter.

1. Think On This One: How do you think the unthinkable? With an itheberg!
2. Missed Out: What did the cannibal get when he was late for dinner? The cold shoulder.
3. No Jive Dive: Why do scuba divers fall backwards out of the boat? Because if they fell forwards, they would still be in the boat.
4. Taking A Stand: "I stand corrected," said the man in the orthopedic shoes.
5. Hairy Or Not: What do you call 100 rabbits walking backwards in a line? A receding hare line.

Now that was a bunch of fun! It may take a while before your ribs quit tickling. Still, you should be smiling for a while, maybe until the next PUN FUN! So long, till next time.

Week 4 of 8.

Howdy, all you Krypto fans. With this episode, we have reached the halfway mark in Krypto 9.0. This Kontest is starting to heat up; still, there is plenty more to come. If you have not yet participated, today is the day to get started and go after the \$25 cash and calculator prize. Today's answer is 4. You are playing with: 7, 4, 24, 19, 2. Remember, you must use all 5 numbers and any combination of addition, subtraction, multiplication or division to write an expression that equals the answer: 4 Krypto is fun and can be challenging. So, go ahead, grab some paper and a pencil and give it a twirl.

Send your solution to: [themathguy@usa.com](mailto:themathguy@usa.com) or snail mail: Krypto Kontest POB 885 Stilwell 74960

## Cy 's Story Continued

Cy tells the story of having to go to work with his Dad, a contractor, throughout his teenage years while going to school. He said, "I was toting 4x8 sheets of plywood at an early age. I also learned plumbing, wiring and carpentry. It was hard work but it didn't kill me." He also tells of how, as a kid, he went to toast a piece of bread for his breakfast but the toaster did not work. His mother told him he would have to wait until she got a new one. Cy thought otherwise. He took the toaster apart and fixed it. That was a glimpse of things to come: going from fixing toasters to setting up complex telephone networks. After getting his diploma from Cherryville High School, Cy joined the military where he would spend the next 22 1/2 years. He rose to the rank of Sgt. 1st Class: 3 up, 2 down. Cy first came to Stilwell 30+ years ago when he visited his carpenter uncle in Fairfield. It was during Strawberry Festival and a brand new and wonderful experience for Cy. He moved to Stilwell a year later. After a stint with the City of Stilwell, Cy took a job with Alltel as an installer. After a spin-off of Alltel's land line business and merger with VALOR Communications Group, Windstream was formed in 2006. Working for Windstream has taken Cy to many places especially into people's homes where he has had many an opportunity to minister to many folks, for in addition to his telephone work, he believes his real job is to

minister to people in need of prayer. He tells of a fairly recent event on the freeway in Tulsa, where he and Celena witnessed a motorcyclist get hit by a car. Cy stopped and, in the middle of the road as the man lay prostrate and badly hurt, Cy laid on top of him and began praying. There was another motorist who had stopped and watched in astonishment the aura that surrounded Cy. Help came quickly and the man survived. Still, when it comes to ministry, his wife, Celena, is his partner. The story of how, when and where they met is interesting. It is the why that is most important. There is no doubt that the Lord put them together, a team with the gift of helps. While Cy is a master of putting communication networks together, he and Celena know the real Master of Communication. And, by the way, Cy is not retired. He is working his own business. His company name is CLD Tech. I asked Cy what the letters stand for? He said, "Courteous, Loyal, Dependable." What more can one expect from The Telephone Man With The Gift Of Helps?!

Cy and his wife Celena.

## Oklahoma State Senator Tom Woods

Preparing for the USAF Fallen Defender Ruck. Airman Jay Gagne from Dover, New Hampshire, Tom Woods, and Airman Samuel Kirchoff from, Plainfield, Indiana.

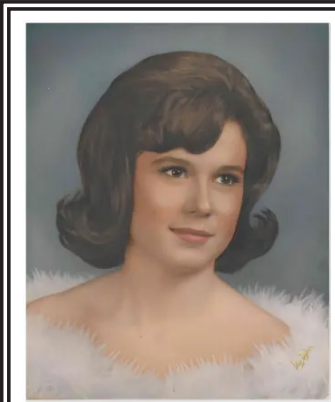

It was an honor to participate in this year's USAF Fallen Defender Ruck and hear from the family members of the Security Forces Defenders that paid the ultimate sacrifice for our freedoms!
